

Tamper-Evident Film

Prevent Theft and Save 35% ■ ■ ■

Tamper-evident label

Product Benefits ■ ■ ■

- Face sheet delaminates after tampering while adhesive remains intact
- Waterproof, tear-resistant and grease-resistant
- Impervious to temperature fluctuations
- Great initial tack with minimal set-up time
- Suitable for indirect food contact
- 35 percent less than Destructible Vinyl or Void materials

Ask your customers if they've experienced losses from shoplifting or security breaches, and the majority will tell you it's a significant problem. Theft and fraud are taking a big bite out of the profits of businesses, but a simple solution from Datamax-O'Neil can help your customers fight back — and win.

Our tamper evident asset-tracking labels are simple to apply and extremely effective. After the label has been adhered to the product and allowed to set up, it cannot be removed without leaving telltale evidence of tampering, and it can never be transferred to another product.

Datamax-O'Neil's thermal transfer tamper-evident film is waterproof, grease-resistant, and does not break down when exposed to temperature fluctuations — so despite the best efforts of today's thieves, your customers' property will be protected.

Customers will benefit from using these labels, which can be applied to any piece of equipment or product, including laptops, printers, and servers; shipping containers; and even financial documents. Your retail customers will no longer worry that shoplifters are replacing expensive price labels with those from sale items. And labels on pharmaceutical bottles will be impossible to transfer or manipulate.

If your customers are currently using comparable tamper-evident products, such as void labels and destructible vinyls, offer them the same theft-prevention benefits at a fraction of the cost with the Datamax-O'Neil Thermal Transfer Tamper-evident film solution.

For information on how you can help your customers prevent theft and save money, or to request a sample roll, ask your Datamax-O'Neil Supplies Sales Representative about our tamper-evident film today.
