Category:

Fully customizable to fit your business.

Asset Tracking is a complete software solution for tracking the location of items.

The software can be customized to suite your exact needs, including reports and integration with legacy applications.

Custom solutions for a fraction of a custom price.

Key Features:

- Customize the data collection with built-in options
- Capture activity for the initial Receiving of the Asset, Moving of asset from one location to another, Retiring of an asset, and Physical counting.
- Track Unique ID, Model & Serial Number, Vendor, Cost, Purchase, Install & Warranty date, take picture, add note
- Batch or Wireless data collection
- Compatible with major manufacturers of mobile computers and printers
- Lock users into using only the data collection program
- Print item and location labels
- Import Items, Categories, Users and more

Solution Pack includes:

- SQL database (CE for Single PC user or Express for Multi PC user)
- PC program to Import data, Run reports, Enter transactions, Reconcile counts & Maintain database tables for:
 - Assets
 - Locations
 - Asset categories
 - Conditions
 - Retire Reason codes
 - Printers and label formats
- Reports (with grouping and limit options)
 - Asset Listing
 - Group by location
 - Limit by Building or Room
- Data Collection program
 - Three levels of location – ex. Building, Floor & Room
 - Move items between locations
 - Track reason codes for retirements
 - Record and reconcile physical count of assets
 - Print asset tag labels to a desktop or wireless mobile printer
