

Foxfire Enterprise WMS

The Right WMS for Your Warehouse

With Foxfire's award-winning Warehouse Management System, Foxfire WMS, and 20 plus years of experience in the industry, Foxfire can help you manage every aspect of your warehouse operation in real-time.

Key Financial Benefits:

- Improved profitability, achieved through labor productivity gains in the warehouse operation.
- Improved working capital and operational liquidity, achieved through optimizing inventory levels.
- Reduced operating costs, achieved by reducing shipping errors and associated charge backs.
- Increased revenue, achieved by the ability to take on new customers with demanding distribution needs.
- Improved customer satisfaction levels, achieved by real-time order visibility and reduction in errors.
- Reduced capital and operating costs, achieved by optimizing warehouse space.

Extensive WMS Capabilities, Reasonable Price

Our clients tell us that Foxfire's Enterprise WMS takes care of most of their distribution center needs related to inventory and warehousing.

Apparel distribution centers use Foxfire to help cover specialized needs to track size, style and color.

Food distribution centers use Foxfire to track lot and expiration dates.

Electronics distribution centers use Foxfire to track serialized inventory.

We primarily work with small and medium size businesses owners and executive leaders to solve challenges related to inventory management, customer shipments and profitability.

Foxfire can also handle the sophisticated needs of large warehouse operations. Foxfire's WMS is currently deployed in large scale, multi-warehouse distribution environments in numerous industries, including apparel, footwear, manufacturing, telecommunications, electronics, traditional retail, e-commerce retail, non-profits, third party logistics, wholesale distribution, and public warehousing.

Microsoft Based Technology:

Foxfire is based on Microsoft technology including Windows based PCs and Servers, Microsoft SQL Server as the database, and Windows Mobile and CE based mobile devices. Foxfire supports numerous brands of mobile hardware.
