

# Datamax-O'Neil SafeD-Band™ Wristbands

## Your Solution for Accurate, Efficient, Safe Identification

Whether you're in the health care field or you work in the theme park, water park, or entertainment industries, Datamax-O'Neil's **SafeD-Band™ direct-thermal wristbands are the perfect solution for your patient-identification or patron-management needs.**

How does one product service two such diverse worlds? It's simple. With their latex-free, polypropylene face stock and polyethylene liners, Datamax-O'Neil SafeD-Bands provide you with **unmatched image quality and durability.**

So health care professionals can rely on Datamax-O'Neil wristbands to **protect the five rights of patient safety.** And those working in patron management can depend on Datamax-O'Neil SafeD-Bands for secure cashless transactions. No matter your field, **you'll enjoy the optimal quality control and barcode scanability you need.**

Datamax-O'Neil SafeD-Bands feature the latest in **ultra-light synthetic materials and state-of-the-art coatings**, so you can enjoy an **easy, one-step, print-and-apply identification solution.** With direct thermal print technology, you can use a host of quality barcode symbologies, including two-dimensional Aztec codes. And because they're available in adult, pediatric, and neo-natal sizes, you'll always have a durable, comfortable wristband solution for your customers.

To discover how Datamax-O'Neil SafeD-Bands can help **streamline your business**, visit our website at [www.datamax-oneil.com](http://www.datamax-oneil.com) or contact your Datamax-O'Neil Printer Supplies Sales Representative. Our knowledgeable representatives can answer your questions quickly and connect you with a Datamax-O'Neil Authorized Reseller in your area.

**Specifications:** Made from secure, latex-free, direct-thermal polypropylene, Datamax-O'Neil SafeD-Bands feature an easy-to-remove permanent adhesive tab and three die-cut security slits to provide visual tamper evidence. The image area is protected by a durable coating resistant to soaps, lotions, and common hospital solvents.

**Available Sizes:** Adult 1" x 11", Pediatric 1" x 7", Neo-natal .75" x 6"
