

513857 – Charging Holder With Swiveling Top Retention Arm. For Hard Wired Installation

Protect your investment in mobile computing with this high-quality, in-vehicle charging holder. This device specific holder provides a safe and secure place for your mobile computer, eliminating concern of the device bouncing around the vehicle or running out of battery before the day is done! This increases user efficiency and reduces the potential for damage to the device.

The holder allows the user to mount the device conveniently within the vehicle. It is designed for easy, one-handed insertion and removal, optimizing accessibility and operation. Portrait and landscape viewing is made possible with the included tilt swivel. When the device is docked, the custom fit maintains a positive holder-to-device connection for worry-free charging. Constructed to high-quality standards, the holder can withstand the most severe road conditions and temperature extremes.

This holder works in 12 volt and 24 volt vehicles and comes with bare wire leads for direct connection to a power source in the vehicle.

The holder can be used in commercial, personal, public agency, emergency and utility vehicles and mounts to any flat surface or mounting brackets such as vehicle dashboard mounts, floor, pedestal or handlebar mounts.

PART NUMBER DETAILS:

Part Number: 513857
EAN-13: 7320285138575

COMPATIBLE WITH :

Symbol TC70, Zebra TC70
Symbol TC75, Zebra TC75

FEATURES & BENEFITS :

- Always keep your battery fully charged
- Works in 12 and 24 volt vehicles
- Access to all ports
- One-handed insertion/removal of device
- Swiveling top retention arm
- Holder swivels to portrait and landscape positions
- Charging cable attached to holder
- Dock type connection
- Made of high-grade ABS and Acetal plastic
- Manufactured in Sweden by Brodit AB
- AMPS hole pattern for easy attachment to wall, pedestal or dashboard vehicle mount
