### Secure Mounting Solution for a Wide Range of Tablets

This new line of Adjustable Tablet Holders from ProClip USA is a perfect non-powered mounting solution for most tablets with or without a protective case. The holders are available with three different lengths of top arm, so the chances are very good that we have a holder that fits your tablet device just right. The adjustable top arm can be locked securely into position by tightening a locking wheel on the back of the arm.

All holders are equipped with the ProClip TILT SWIVEL so you can easily adjust the angle of your tablet and even swivel between landscape or portrait for the best possible viewing angle.

#### Features:

- Non-Charging
- Adjustable Top Arm
- Three Different Sizes
- TILT SWIVEL Included
- Fits Tabs up to 25 mm Thick
- Precision Made in Sweden from Top Grade Plastics
