Upgrade SmartPass Platform

USE THESE INSTRUCTIONS TO UPDATE THE SMARTPASS PLATFORM PROGRAM ON YOUR PC.

Step 1:

Uninstall program from Windows
Select Start → Settings → Apps & Features → Uninstall → Choose app named "PASS" → "Uninstall"

Step 2:

Open Windows File Explorer → Search for 'MIPS" on this PC → Delete all MIPS files found in search.

Step 3:

Download the latest version of the Management Software from RMS Omega's SmartPass webpage.

Step 4:

Run "EZ_PASS_setup_V2.3.4.exe" (or the latest version file name.)

Step 5:

A blue pop-up will appear saying "Windows protected your PC," click "more info," and click 'Run anyway."

Step 6:

Select "Yes" to install the program.

Step 7:

Select "Confirm" in Smart Pass Management Platform pop-up.

Step 8:

Select "Install Now" to begin the program installation.

Step 9:

Once software has been installed, copy IP address the software creates and paste it into Google Chrome browser.
