Introducing the “All-in-One” Mobile Receiving Station

Station consists of:

Newcastle Mobile Workstation with
PowerSwap Nucleus® Lithium System

- + High performance Zebra printer
- + Wireless Zebra barcode scanner
- + ERP/WMS software

A Mobile Receiving Station brings your team to the work and slashes the time they waste walking. Labels are printed and applied right at the pallet. Receiving volume skyrockets, labeling errors disappear, and labor costs drop.

**5-10+ hours gained per worker
(weekly)**

Safety: ensure safe work
distances

90% reduction in labeling errors

**50% increase in overall worker
productivity**

63% increase in receiving volume

ROI in about 6 months

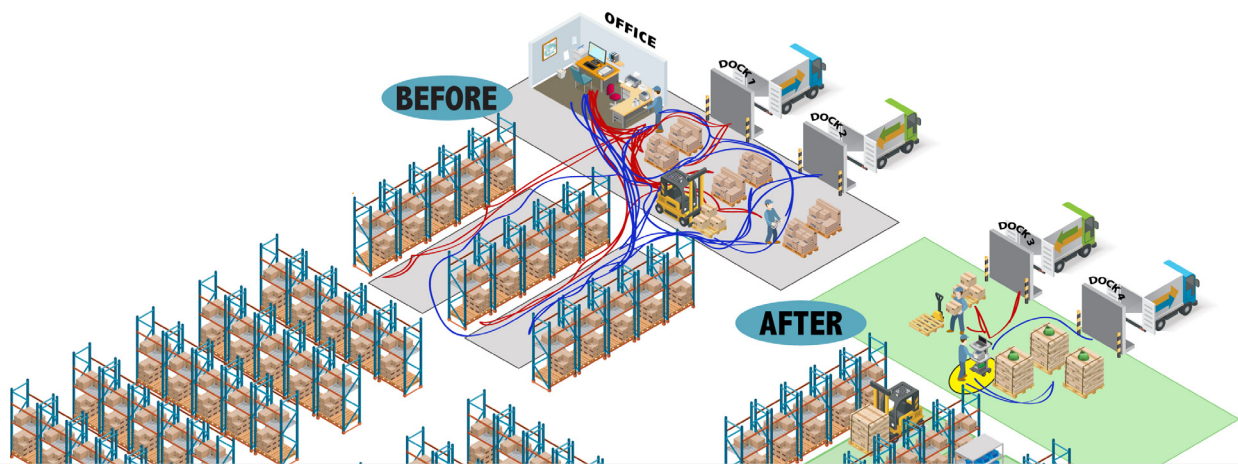

UNPARALLEL RESULTS. UNDENIABLE ROI.

Typical ROI Calculation

Based on \$20 hourly labor rate (including benefits), 40 hours per week.

	1 USER	50 USERS
Dollars saved per year	\$10,400	\$520,000
Hours saved per year	520	26,000
Months to pay back initial station purchase	6.1	6.1

Mobile Receiving Stations are proven to cut labor costs while dramatically improving dock to stock metrics & labeling accuracy.
