
EntryTracs Printer Mounting Instructions

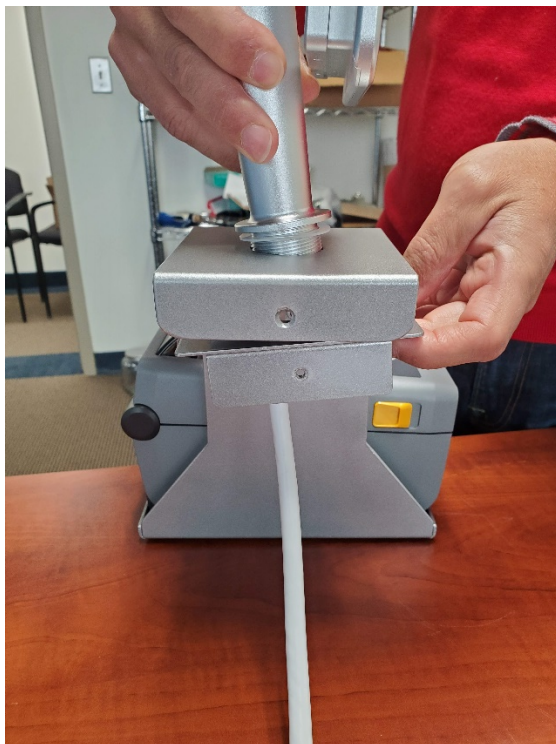

Step 1:

Remove the top piece of the stand by unscrewing the two screws located at the top right and left of the stand.

Step 2:

Feed cables through the top of the printer mount and then the top of part of the stand making sure the holes for the screws align.

Step 3:

Feed cables through the locknut and screw into the bottom of the mounting plate.

Step 4:

Connect corresponding wires (numbers 1, 2, and 3) and tuck into the stand. Then secure the top with the screws you removed in step 1.

Step 5:

Load labels as seen below, close lid gently until it locks.

Step 6:

Plug in power connector (from back of stand) and (supplied) 1 FT. USB Cable from back of printer to the USB port on the back of stand. Push power button on front control and hit the feed button to feed label.
