Automate Your Device Provisioning

RMS OMEGA SIGNATURE SERVICES

RMSOMEGA
TECHNOLOGIES

Ready for use, right out of the box.

Have your IT devices configured and ready for your staff members as soon as they arrive.

Device Provisioning Services for Your Organization's Computers, Tablets, and Mobile Devices

By leveraging RMS Omega's device provisioning services, internal IT teams will be given the opportunity to shift focus to more critical tasks. Whether preparing for a new hire, project, or adapting as technology needs change over time, our technology experts can help get workers' devices up and running fast by provisioning devices before they arrive on site.

RMS Omega's device provisioning services include:

✓ Unpacking and inspecting units for shipping damage and DOA units

✓ Charging of primary and spare batteries to improve the out-of-the-box user experience

✓ Loading of customer provided wireless settings and network IP information

✓ Enterprise and Mobile Device Management MDM) platform enrollment

✓ Program installation and configuration (if required)

✓ Power settings to give the best longevity on a single battery based on the customer requirements

✓ Upgrading device firmware to the latest revision with all necessary patches

✓ Apply necessary asset tags and/or labels to devices
