

"Grab-and-Go" style inventory management

Track and manage inventory across your entire supply chain in real-time.

From raw materials to finished goods, supplies, and more, Xemelgo's "Grab-and-Go" style inventory management solution eliminates manual cycle counting, automates transactions, and alerts your team before issues occur. Improve performance across your entire supply chain with real-time insights and shared visibility.

Manage your inventory with astonishing ease and unprecedented accuracy

Audit without downtime

Audit thousands of items in seconds using RFID to streamline your physical inventory audits with lightning speed and unparalleled accuracy.

Keep supply ahead of demand

Reduce the risk of stock-outs with improved inventory accuracy, intelligent alerts on low stock and expired materials, real-time consumption data, automatic reordering, and more.

Maximize productivity

Save hours of searching each week with the mobile search and find feature, or our real-time map dashboard desktop application and using a handheld scanner.

"Hisco was looking for a touchless, automated solution for tracking inventory from the VMI tool crib to the manufacturing floor. Xemelgo and our RFID solution have paved the way for new opportunities making it easier for our customers to do business with Hisco."

Nelson Picard
VP of Operations, Hisco Inc.

Xemelgo's suite of solutions was developed with manufacturers for manufacturers to improve operational efficiency and eliminate waste on the factory floor. RFID and real-time location tracking make it easy to manage inventory consumption across your operations at grab-and-go speed. Leverage Xemelgo's Inventory Management Solution to track and manage real-time inventory with visibility across the entire supply chain.

INVENTORY MANAGEMENT

Audit your inventory up to 18x faster with Xemelgo

Xemelgo's automated inventory management system saves time, eliminates surprises, and unlocks new opportunities.

BENEFITS

Business outcomes realized by customers
