

—and a solution that provides **BIG savings, EVERY year**

**Reduce device loss | Save staff and IT time | Reduce device damage**

With Intelligent Cabinets, you no longer need to spend time managing your devices and device access. From providing secure storage and charging to handling device check-out and check-in at the start and end of every shift, to tracking who has which device, whether it's been returned and who is responsible for any damage—Intelligent Cabinets handle it all. And Intelligent Cabinets make good business sense—regardless of the size of your business, they pay for themselves in just a handful of months.
