

# Edgefinity IoT

Shipping & Receiving | Inventory Tracking

## Edgefinity IoT Overview

To compete successfully in today's fast-paced industrial landscape, you need to achieve the highest degree of inventory accuracy. To maximize profits, you must ensure inventory availability, cut shrinkage and reduce time spent on cycle counts and receiving.

Edgefinity IoT is real time tracking software for organizations looking to gain real time visibility across large industrial environments. Whether you need to track large amounts of inventory, locate misplaced equipment, or ensure the safety of your employees, Edgefinity IoT lets you quickly deploy advanced, industrial strength real time tracking capabilities.

## Edgefinity IoT for Shipping & Receiving

Shipping, receiving, and inventory management are all challenging aspects to any distribution center or operation. Make it simpler with Edgefinity IoT software application. Get more accurate parcel tracking, and easier applications from CYBRA. Gain the ability to locate single items quickly within your warehouse or distribution center. Increase productivity at packing stations while raising inventory accuracy. Edgefinity IoT lets you track your inventory right down to the itemized level.

### Search in Real-Time

Within Edgefinity IoT, you can add all the assets, goods and inventory you want to track. Once loaded into Edgefinity, you can track and search for items, and find them on your distribution center's floor plan.

### Speed Things Up

If your distribution center is shipping and receiving large sums of packages each day, you know it's all about throughput. With Edgefinity IoT, you can audit every item in every carton received, and every outbound carton packed.

### Track Inventory

To make the most of your distribution center's space, maintaining accurate inventory information is key. Receive alerts when items run low. And, running cycle counts only takes minutes, so you're always up to date.

## Ready to Explore the Possibilities with RFID?

At RMS Omega, we are a single-source provider for all components of your RFID project.

If you're considering RFID for asset tracking, inventory management, or any other business application, feel free to contact us at [info@rmsomega.com](mailto:info@rmsomega.com) or call **888.857.8402** to get answers to your questions, learn more about RFID systems and solutions, and find out how we can help you achieve a successful implementation.
