YOU THOUGHT YOU KNEW ZEBRA. BUT THERE'S SO MUCH MORE TO SEE.

For more than 50 years, Zebra has delivered innovative solutions and technologies that help organizations manage their inventories and activities—from barcode printers and scanners, to RFID tags and readers, to mobile and wearable computers, to enterprise software and more.

Many of our customers have come to depend on Zebra products for their day-to-day operations and year-to-year success. But even our most loyal champions may not fully appreciate everything Zebra has to offer.

Every business in every industry will find innovations in our portfolio that will help them operate more efficiently and effectively. Products designed to improve visibility and decision-making. Solutions for achieving sustainability and regulatory compliance.

Examine your capabilities today and consider how you want your business to grow—then ask your Zebra representative how we can help you get there. With over 10,000 partners in over 100 countries, we are where you need us to be, equipped with the local knowledge, deep capabilities and industry experience required to deliver real value to your business.

General Purpose Scanners

Jobs may differ, but workers' needs remain the same: split-second, fail-proof, error-proof scanning. Give them scanners made to increase productivity, no matter what their environment or challenge.

Use our Scan Selector tool to find out which scanners are right for your specific industry, environment and requirements.

DS9900 Series Hybrid Handheld/Hands-Free 1D/2D Scanner

One-of-a-kind hybrid design

Maximum flexibility and superior comfort, designed to boost productivity at the POS.

- Hybrid design offers handheld and hands-free flexibility
- Supports Digimarc™ to speed checkout
- Elevated electronics protect the device from casual spills

INDUSTRY MARKET:

Zebra scanners have been developed and refined through more than **50** years of field-proven innovation, with options for every purpose and price point.

When you choose

Zebra barcode scanners, your workers get the performance, comfort and ease of use they need to get the job done right—and fast.

DS2200 Series Handheld 1D/2D Scanners

The benefits of 2D imaging at an outstanding value with minimal investment.

- Corded and cordless models
- Average 21% faster for a variety of checkout tasks compared to similar models*

INDUSTRY MARKET:

DS4600 Series Handheld 1D/2D Scanners

Keep checkout lanes, manufacturing lines and warehouses running smoothly.

- A model for every need in your organization
- 14% faster scanning through plexiglass during checkout compared to the nearest competitor*

INDUSTRY MARKET:

DS8100 Series Handheld 1D/2D Scanners

Ideal for retailers willing to invest in increasing transactions per shift and reducing customer wait time.

- Choice of desktop or presentation cradle
- Up to 33% faster scanning in handheld mode compared to similar models*

INDUSTRY MARKET:

DS9300 Series Hands-Free 1D/2D Scanners

A fit-anywhere form factor coupled with stylish aesthetics.

- Designed for hands-free scanning but can be handheld
- Compact form factor ideal for limited checkout counter real estate

INDUSTRY MARKET:

CS60 Companion 1D/2D Scanner

Easily converts between corded and cordless, hands-free and handheld operation.

- One device can be used for multiple workflows
- Pocketable and wearable when mobility is essential

INDUSTRY MARKET:

Industrial Scanners

Our product design teams work alongside customers like you, observing how they use scanners in warehouses, retail stores and manufacturing plants. From our rich insights, we designed scanners built to elevate your performance.

See how a supermarket chain used Zebra tech to speed produce scans and improve checkout accuracy.

DS3600 Series Ultra-Rugged Barcode Scanners

Be unstoppable with relentless performance

Takes a beating and still scans faster and farther.

- Corded and cordless models
- Multiple data capture models: standard range, high density, DPM, extended range and more
- Built to withstand extreme heat, cold and humidity
- IP65 and IP68 sealing

INDUSTRY MARKET:

DS457 Fixed Mount 1D/2D Scanner

Fast scanning from the retail POS and airport boarding gate to the manufacturing production line.

- Designed for small spaces with a near-zero footprint
- Four data capture models: standard range, high density, driver's license parsing, direct part marks

INDUSTRY MARKET:

Single-Plane and Multi-Plane Scanners

MP7000 Multi-Plane 1D/2D Scanner

Bust lines with next-generation POS scanning, color camera imaging and live video.

- Digimarc™ barcode support
- Image capture capability for checks, receipts, utility bills and more

INDUSTRY MARKET:

SP72 Series Single-Plane Scanners

Speed up and simplify your checkout line experience with in-counter and on-counter scanning.

- Best-in-class scan performance with PRZM Intelligent Imaging Technology
- 2MP color camera option to enable vision-based applications

INDUSTRY MARKET:

Scanners

Zebra scanners simplify caregivers' interactions with their patients. Scanning applications, though routine in nature to the caregivers, help prevent medical errors, improve patient safety and increase productivity. With imaging technology automating many administrative requirements, caregivers can focus on the needs of the patient.

All of our healthcare scanners can be disinfected to medical-grade standards and here's how.

DS9900 Series Hybrid Handheld/ Hands-Free 1D/2D Scanner for Labs Built for life in the lab

Improve workflow efficiency and accuracy with a hybrid presentation imager built for the lab.

- Hybrid design offers handheld and hands-free flexibility
- Elevated electronics protect the device from casual spills
- Disinfectant-ready housing can handle regular sanitizing

Zebra healthcare scanners

give clinicians the tools they need to improve patient outcomes, increase productivity and streamline everyday processes.

DS8100 Series for Healthcare 1D/2D Scanner*

Seamlessly integrate into existing workflows.

- Cabled and cordless models
- Disinfectant-ready housing can handle regular sanitizing

CS60-HC Companion 1D/2D Scanner

Easily converts between corded and cordless, hands-free and handheld operation.

- One device can be used for multiple workflows
- Disinfectant-ready housing can handle regular sanitizing

DS2200 Series for Healthcare 1D/2D Scanner*

Dependable, affordable and purpose-built for healthcare.

- Cabled and cordless models
- Disinfectant-ready housing can handle regular sanitizing

DS4600 Series for Healthcare 1D/2D Scanner

A versatile healthcare scanner that does more for the whole hospital.

- Cabled model
- Disinfectant-ready housing can handle regular sanitizing

Fixed Industrial Scanners

Zebra's fixed industrial scanners automatically track and trace items from production to distribution. Easily keep track of every part and package with a model for every application. Upgradeable features grow as you do to meet the evolving needs of your business.

Watch this video on how machine vision technology can help drive production performance.

GS20 Connectivity Gateway

Increase production line throughput with next-gen scan tunnel architecture

This powerful industrial connectivity gateway enables scan tunnel configurations to substantially increase package tracking and sorting throughput.

- Connect to up to 16 cameras to support a variety of package sizes and label orientations
- Built-in support for Rockwell, Siemens, Mitsubishi and Omron programmable logic controller (PLC) devices

Now more than ever, you need to improve operational efficiency, accuracy and agility in your supply chain to keep up with changing global conditions as well as increased pressure from an on-demand economy. Implementing industrial automation solutions can help achieve these goals and improve supply chain workflows.”

— **Donato Montanari**,
Vice President and General Manager of Machine Vision and Fixed Industrial Scanning, Zebra Technologies

Zebra fixed industrial scanners drive unprecedented efficiency with hands-free data capture and automation.

FS10 Fixed Industrial Scanner

Easily track and trace items as they move through warehouses and distribution centers with this compact, fits-anywhere, plug-and-play scanner.

- Enjoy first-time, every-time data capture with Zebra-exclusive features
- Connect to the USB port of a workstation, laptop, tablet or any other host device

FS20 Fixed Industrial Scanner

Zebra's smallest networkable fixed industrial scanner integrates high-quality scanning to track and trace every item moving through production, storage and fulfillment.

- Integrate easily into PLCs or host networks using multiple connectivity options
- Reduce setup complexity and cost with support for Power-over-Ethernet (PoE)

FS40 Fixed Industrial Scanner

Broad capabilities meet complex barcode capture requirements and can be tailored to specific needs, with flexible options like decode range, illumination, connectivity and power.

- Isolate production data and store images in the cloud or on a local server with two available Ethernet ports
- Capture up to 16 different images of a single item—each with its own unique setting for focus, exposure, gain, illumination control and more—with ImagePerfect+

FS70 Fixed Industrial Scanner

Completely customizable scanner facilitates challenging track-and-trace applications. Choose from a variety of C-mount external lens and lighting options to achieve the working range and field of view the application and environment require.

- Address complex imaging requirements with a range of customizable options for depth of field, reading distance and lighting requirements
- Built-in Ethernet/IP with Add-On Profile, PROFINET and other network protocols enables painless integration with common PLCs or host systems

See more of what's happening on the production line or conveyor with a best-in-class machine vision toolset that helps eliminate errors and increase performance.

Smart Sensors and Cameras

Reduce production defects, increase throughput and improve efficiency with Zebra's smart sensors and cameras. Cutting-edge machine vision technology delivers unmatched precision to warehouse or manufacturing operations. Whether your production line needs simple image capture or complex inspections, Zebra has a smart sensor or camera that's perfect for the job.

Read this white paper examining applications for machine vision technologies in manufacturing and logistics.

Iris GTX

Machine vision and deep learning edge IoT device

Fast high-resolution image sensing, efficient dual-core embedded processing, and comprehensive I/O capabilities in a rugged smart camera.

- Leverage on-device image acquisition and analytics
- Pair with Aurora Design Assistant software to form an all-in-one vision system

Machine vision

provides enhanced visibility into physical operations by delivering images and actionable intelligence to automation systems.

VS20 Machine Vision Smart Sensor

Multiple connectivity options easily integrate into a PLC or host network, enabling primary machine vision applications to feed all the processes that drive the business.

- Integrate easily with PLCs or host networks via Ethernet and serial ports
- Add machine vision tools or support for new barcode symbologies with a simple software upgrade

VS70 Machine Vision Smart Camera

Whether there is need for a wide-angle lens to capture large parts, a zoom lens to inspect distant components, or a specialized lens for precise measurements, this smart camera is completely customizable to any need.

- Reduce cost, training and management time, as well as the need for external peripherals, with Zebra-exclusive features
- Support any external C-mount lens and any external lighting solution

VS40 Machine Vision Smart Camera

A breadth of functionality supports a variety of inspection applications on the production line. Tailor this smart camera by choosing from a range of complementary lenses, illumination, connectivity, power and filters.

- Expand application functionality and improve error-proofing with up to nine programmable I/O ports
- Minimize downtime by immediately diagnosing and correcting the source of any image degradation with Golden Image Compare

With unique

features designed for easier setup, deployment and maintenance, Zebra's fixed industrial scanning and machine vision solutions offer users a flexible, interoperable portfolio—one that helps companies keep pace with the demands of industrial manufacturing and logistics.
