

RFID POWERSTATION

THE ULTIMATE RFID SUPPLY CHAIN SOLUTION

Asset Tracking & Inventory Solutions

In warehouse, fulfillment, distribution, and manufacturing environments, saving time is money gained. Completing asset tracking and inventory tasks with handheld RFID mobile devices was once a game-changing, time-saving solution to optimize workflows and boost efficiency. The next evolution calls for faster, and more accurate solutions to accelerate asset tracking and inventory tasks. That time has come.

A New Force in the RFID Supply Chain

The RFID PowerStation empowers the most-advanced mobile RFID supply chain solution to optimize asset tracking workflows and inventory tasks more quickly and efficiently than ever before. Its purpose-built design incorporates a full-metal industrial design and construction for superior durability in the harshest of operating conditions. The RFID PowerStation mobilizes and extends the power of a fixed, RAIN UHF RFID reader solution that optimizes read performance in a variety of supply chain and manufacturing applications. It's your go-to choice for the best and most powerful tool for process modernization.

The DTG RFID PowerStation offers many custom configuration options

*Are your Asset Tracking workflows and Inventory tasks inefficient?
The DTG RFID PowerStation is the perfect solution.*

RFID POWERSTATION

EMPOWERING MOBILITY

Mobilized solutions should make the workforce's job easier, safer, and more productive. Our RFID PowerStation is equipped with several key features to ensure your workforce gets the job done accurately and efficiently. Its ergonomically friendly design eliminates potential operator fatigue while meeting all OSHA Safety requirements.

Specifications

- Dimensions: 18.5" W x 30" D x 41.5" H
- Height adjustable work surface: 18" W x 25" D with forward-facing handles & weight capacity of 75 lbs.
- Laptop/PC mounting option with height adjustment range of 22"-41.5"

Features

- MPower LiFE Battery System is swappable, long-lasting, and can provide continuous uptime
- Made from powder-coated steel with thermo-foil laminated surfaces for harsh environments
- AC power cord allows batteries to be charged directly on the unit or on optional external charging station
- PC allows access to critical applications and data
- 2 rear locking swivel casters and 2 front directional locking swivel casters
- Lockable technology tray at the PowerStation's base
- 5-Year Warranty for cart, power system, and battery cells

Options

- Adjustable RFID 4-port reader bracket
- 4 VESA adjustable antenna brackets
- One 10-foot telescoping antenna pole
- Attachment points for a wide range of custom accessories

The DTG RFID PowerStation is compatible with most RAIN UHF RFID readers, including, but not limited to Alien, Impinj, and Zebra.

A modular, vendor-agnostic design featuring unlimited adjustments and accessory options to fit your unique needs. RFID equipment not included.
