

WORKBENCH POWERSTATION

Bring your work to the point of task

Perform a Variety of Tasks at the Point of Task

Regardless of your industry or role, many operations require significant workspace to perform any workflow. The mobile workbench mobilizes traditionally fixed workstations and provides the necessary space to perform a variety of tasks. Whether you are in manufacturing looking for a way to mobilize your assembly stations, or you are performing picking activities in a supply chain role, DTG's mobile workbench allows you to engage in these activities without the types of waste that exist with traditionally fixed workstations.

For Manufacturing Environments

Operators will no longer be burdened by transportation or motion waste within a manufacturing environment. Reducing waste saves time, money, and lowers potential quality issues for faster production runs. Allowing equipment to move freely on the floor allows you to perform in-process or final testing on products on the manufacturing line.

For Supply Chain Environments

This workbench improves productivity over traditional fixed picking stations by mobilizing technology for your workforce to do their job efficiently at the point of task. It facilitates high-volume picking operations by storing products within reach.

**DTG WORKBENCH

Features

- Ergonomic Lift Columns Allow for Precise Worktop Height Adjustment
- Battery Chemistry: LFP Batteries are the Safest and Greenest Batteries Available
- 100% Uptime with Uninterruptible Instant-Swap Batteries
- Remote Charger for Off-Cart Charging
- Recharge Time: 2 Hrs – Faster Charging Reduces the Number of Batteries Needed
- Capacity: 250-500 Wh – Modular Batteries Allow for Added Capacity
- Battery Weight: 6 Lbs
- The DTG 5-year Warranty is Unmatched in the Industry

Specifications

- Dimensions (Lowest): 46" L x 28" W x 38" H
- Dimensions (Tallest): 46" L x 28" W x 48.5" H
- Weight: 190 Lbs
- Ergonomic Electronic Height Adjustment with 10.5" Stroke
- Durable Welded Steel Chassis to Withstand Industrial Environments
- 3X Steel Shelves with Adjustable Positioning for Picking & Equipment Storage
- Ample Workspace for Your Equipment Needs
- Smooth Swivel Casters with Total Lock and Directional Lock Capability
- 4X Additional AC Outlets for Additional Power

CUSTOMIZABLE TO FIT YOUR NEEDS

All DTG workstations are customizable to maximize your employees' productivity

HEIGHT ADJUSTABLE FOR ERGONOMICS

Adjust the height of the workstation from 38" up to 48.5"

SAFEST BATTERY CHEMISTRY ON THE PLANET

Made with advanced LFP chemistry, our batteries have the strongest globally backed safety certifications and cleanest environmental properties
