

SureMDM®

Secure. Monitor. Manage.

Supported Platforms

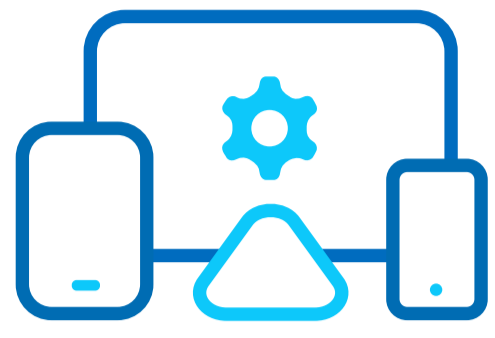

SureMDM by 42Gears is an intuitive and powerful Unified Endpoint Management (UEM) solution for Android, iOS/iPadOS, Windows, Linux, macOS, Chrome OS, Apple TV, Wear OS, VR, and IoT platforms. Deploy, manage, and secure mobile devices and the content they hold, keep corporate data safe, and remotely monitor and repair any device from an easy-to-use central console.

Key Features:

Express Enrollment

Enroll and set up devices in SureMDM quickly and easily via multiple enrollment methods.

Centralized Management

Effectively manage all your devices and get device-related information you need to make informed decisions with SureMDM's centralized console.

Robust Remote Management

Use Out-of-Band management to control devices. Remotely turn devices on or off, maintain a remote session even as a device reboots, and more.

Android Enterprise and Apple Business Manager support

Set up, configure, and deploy corporate-owned Android and Apple devices right out of the box.

Keep Your Devices and Data Safe

Enforce rigorous password policies and push content, applications, and identity certificates over-the-air. On Bring-Your-Own-Devices (BYOD), separate corporate apps from personal-use apps.

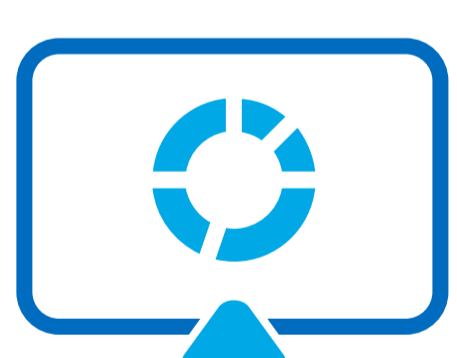

Monitor and Reinforce Responsible Device Behavior

Automatically activate policies based on time, location, or a device's current Wi-Fi network. Remotely locking, rebooting, or wiping devices that are stolen or that violate configured settings ensure fine-grained device control.

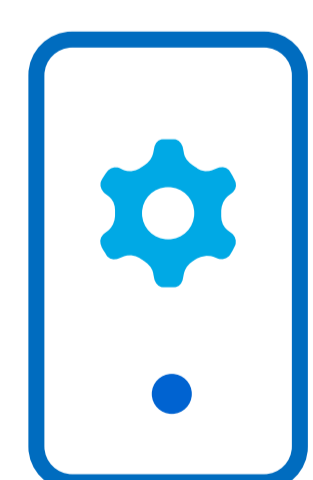

Remote Support and Troubleshooting

Skip the commute needed for in-person repairs with the ability to view and control devices remotely, now with screen recording.

Advanced Analytics and Data Visualization

Get a graphical view of device details, status, alerts, and notifications. Monitor non-compliant devices and visualize data by customizing reports as per requirements.

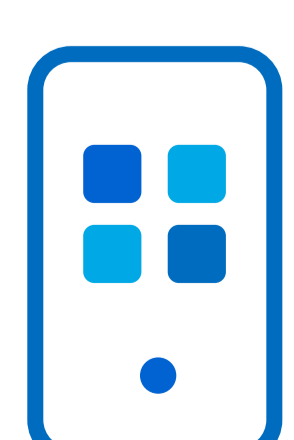

COD, BYOD, CYOD, and COPE Profile Support

SureMDM supports multiple mobility strategies like COD, BYOD, CYOD, and COPE to support the modern-day workforce by combining flexibility with IT control.

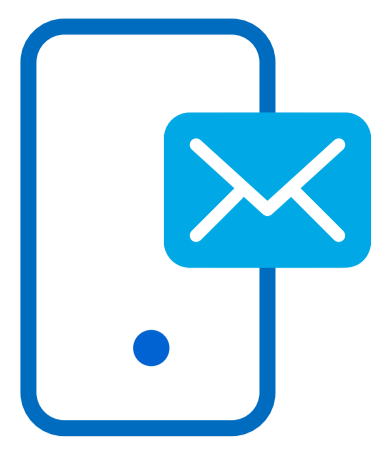

Alerts and Notifications

Use the built-in messaging application to broadcast alerts and messages from the SureMDM console.

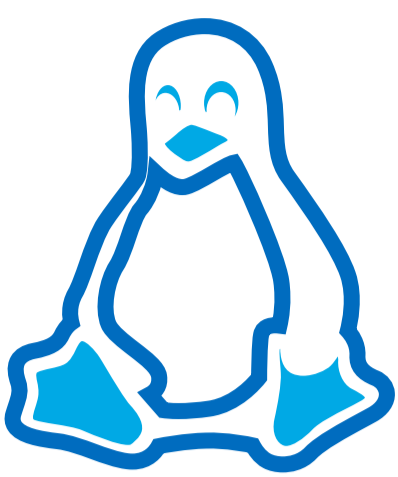

Mobile Application Management

Bulk-purchase and distribute apps from the central console directly to enrolled devices with Apple Business Manager, Microsoft Store, Google Play Store, and SureMDM App Store.

Mobile Email Management and Microsoft 365 Support

Define and enforce security compliance policies and secure Office 365 apps and corporate emails.

Linux Device Management

Simplify the entire Linux device lifecycle management process with capabilities such as Linux Kiosk Mode, Remote Support, Compliance Jobs, and Content Distribution.

Wearable Support Management

Monitor, restrict, and support Apple Watches and Wear OS devices.

ChromeOS Device Management

Seamlessly manage ChromeOS devices with capabilities such as Apps and Extension management, Application and Web Kiosk Management, and Security Management.

Things Management

Harness 42Gears Things Management Technology to monitor and manage peripheral devices like printers, batteries, cradles, and Internet of Things (IoT) devices from the SureMDM console.

VR Device Management

Keep VR devices and content secure by pushing app updates and files to all devices at once.

Mobile Threat Defense

Use SureMDM MTD to protect your Android devices from various app-based threats. Configure and push Microsoft Defender Antivirus policies on enrolled Windows devices.

SureMDM ZTNA Upcoming

Provide Zero Trust Network Access to corporate resources from your managed endpoints.

SureMDM InLocate Beta

Precisely track and locate enrolled devices in real-time within your facility.

Why choose SureMDM?

- ▶ **Single Pane of Glass Solution:** Secure, monitor, and manage multiple endpoints from a centralized console.
- ▶ **Reduced IT Burden:** Save IT time and effort with remote configuration, policy deployment, and app installation.
- ▶ **Adherence to Compliance:** Effortlessly enforce device security policies and data protection standards.
- ▶ **Technical Superiority:** With over 14 years in the UEM industry, we have seamlessly supported more than 5 million device deployments across 160+ countries.

- ▶ **Agility and Scalability:** SureMDM ensures unlimited scalability and business agility. We offer a common agent for SaaS and On-premise.
- ▶ **Bespoke Product Customization:** Quick turnaround on feature and customization requests.
- ▶ **Customer Satisfaction:** Consistent CSAT score of over 95% reflects commitment to unparalleled customer experience.
- ▶ **High-touch White-glove Technical Support:** Experience real-time technical support 24x7 to ensure uninterrupted IT operations.
- ▶ **Value for Money:** Realize a 25X ROI and 60% time savings by managing your device ecosystem with SureMDM.
